Steve Carney 2006 Since the arrival of Al-Jazeera in late 1996, western style news programming such as the British Broadcasting Corporation and U.S. Cable News Network has fallen out of favor in the Middle East. Now, with Al Jazeera, the region's first home-grown English-language news channel to be headquartered in the Middle East, a new player has entered the television news sphere. Its coverage of wars and conflicts in the region has earned the pan-Arabic news network many admirers and a few powerful adversaries, as Tal Samuel-Azran's book ably demonstrates. This is an empirically strong approach to global communication ethics, as it suggests injecting more cosmopolitanism in global news reporting and commentary.

The Al Jazeera Effect

- Hugh Miles 2006 With more than fifty million viewers, Al Jazeera is one of the most widely watched news channels in the world and one of the most controversial. Set up by the eccentric Emir of Qatar, who turned a failed BBC junior version of the all-news English-language channels such as the BBC or CNN, Al Jazeera English seems well on its way to defining its place in the market. The breadth of its coverage, particularly its Islamic political coverage, has meant that the new English-language channel has been both praised and criticized. Moreover, the BBC and CNN are being forced to redefine their role as a result of Al Jazeera's presence in the English-language news landscape.
