**Debating the Slave Trade**- Srividhyna
Swaminathan 2016-05-13 How did the arguments developed in the debate to abolish the slave trade help to construct a British national identity and character in the late eighteenth century? Srividhya Swaminathan examines books, pamphlets, and literary works to trace the changes in rhetorical strategies utilized by both sides of the abolitionist debate. Framing them as competing narratives engaged in defining the nature of the Briton, Swaminathan reads the arguments of pro- and anti-abolitionists as a series of dialogues among diverse groups at the center and peripheries of the empire. Arguing that neither side emerged triumphant, Swaminathan suggests that the Briton who emerged from these debates represented a synthesis of arguments, and that the debates to abolish the slave trade are marked by rhetorical transformations defining the image of the Briton as one that led naturally to nineteenth-century imperialism and a sense of global superiority. Because the slave-trade debates were waged openly in print rather than behind the closed doors of Parliament, they exerted a singular influence on the British public. At their height, between 1788 and 1793, publications numbered in the hundreds, spanned every genre, and circulated throughout the empire. Among the voices represented are writers from both sides of the Atlantic in dialogue with one another, such as key African authors like Ignatius Sancho, Phillis Wheatley, and Olaudah Equiano; West India planters and merchants; and Quaker activist Anthony Benezet. Throughout, Swaminathan offers fresh and nuanced readings that eschew the view that the abolition of the slave trade was inevitable or that the ultimate defeat of pro-slavery advocates was absolute.

The Afterlife of Character, 1726-1825—David A. Brewer 2011-06-07 The Afterlife of Character, 1726-1825 reconstructs how eighteenth-century British readers invented further adventures for beloved characters, including Gulliver, Falstaff, Pamela, and Tristram Shandy. Far from being close-ended and self-contained, the novels and plays in which these characters first appeared
were treated by many as merely a starting point, a collective reference perpetually inviting augmentation through an astonishing wealth of unauthorized sequels. Characters became an inexhaustible form of common property, despite their patent authorship. Readers endowed them with value, knowing all the while that others were doing the same and so were collectively forging a new mode of virtual community. By tracing these practices, David A. Brewer shows how the literary canon emerged as much "from below" as out of any of the institutions that have been credited with their invention. Indeed, he reveals the astonishing degree to which authors had to cajole readers into granting them authority over their own creations, authority that seems self-evident to a modern audience. In its innovative methodology and its unprecedented attention to the productive interplay between the audience, the book as a material artifact, and the text as an immaterial entity, The Afterlife of Character, 1726-1825 offers a compelling new approach to eighteenth-century studies, the history of the book, and the very idea of character itself.

**Exploring the Black Venus Figure in Aesthetic Practices** - 2019-07-15 Tracing the figure of Black Venus in literature and visual arts from different periods and geographies, Exploring the Black Venus Figure in Aesthetic Practices discusses how aesthetic practices may restore the racialized female body in feminist, anti-racist and postcolonial terms.

**Faces of Perfect Ebony** - Catherine Molineux 2012-01-02 Though blacks were not often seen on the streets of seventeenth-century London, they were already capturing the British imagination. In her exploration of this emerging black presence, Molineux assembles evidence ranging from shop signs, tea trays, trading cards, board games, and playing cards to song ballads and William Hogarth’s graphic satires.
The Transatlantic Indian, 1776-1930 - Kate Flint 2020-06-09 This book takes a fascinating look at the iconic figure of the Native American in the British cultural imagination from the Revolutionary War to the early twentieth century, and examining how Native Americans regarded the British, as well as how they challenged their own cultural image in Britain during this period. Kate Flint shows how the image of the Indian was used in English literature and culture for a host of ideological purposes, and she reveals its crucial role as symbol, cultural myth, and stereotype that helped to define British identity and its attitude toward the colonial world. Through close readings of writers such as Charles Dickens, Elizabeth Gaskell, and D. H. Lawrence, Flint traces how the figure of the Indian was received, represented, and transformed in British fiction and poetry, travelogues, sketches, and journalism, as well as theater, paintings, and cinema. She describes the experiences of the Ojibwa and Ioway who toured Britain with George Catlin in the 1840s; the testimonies of the Indians in Buffalo Bill's Wild West Show; and the performances and polemics of the Iroquois poet Pauline Johnson in London. Flint explores transatlantic conceptions of race, the role of gender in writings by and about Indians, and the complex political and economic relationships between Britain and America. The Transatlantic Indian, 1776-1930 argues that native perspectives are essential to our understanding of transatlantic relations in this period and the development of transnational modernity.

Encyclopedia of Antislavery and Abolition - Peter P. Hinks 2007 Volume one of a two volume set featuring alphabetically arranged entries that cover a wide range of topics related to the antislavery movement and abolitionist activities in the eighteenth and nineteenth centuries, highlighting people and events that played a key role in ending slavery in the United States.

Trading Places - Madeleine Dobie 2010 Dobie
explores the place of the colonial world in the culture of the French Enlightenment, tracing the displacement of colonial questions onto two familiar aspects of Enlightenment thought: Orientalism and fascination with Amerindian cultures.

The Poetry of Slavery-Marcus Wood 2003 This volume collects the most important works of poetry generated by English and North American slavery, mixing poetry by the major Anglo-American Romantic poets with curious, and sometimes brilliant, verse by a range of now forgotten literary figures.

The Libertine Colony-Doris L Garraway 2005-07-08 Presenting incisive original readings of French writing about the Caribbean from the inception of colonization in the 1640s until the onset of the Haitian Revolution in the 1790s, Doris Garraway sheds new light on a significant chapter in French colonial history. At the same time, she makes a pathbreaking contribution to the study of the cultural contact, creolization, and social transformation that resulted in one of the most profitable yet brutal slave societies in history. Garraway’s readings highlight how French colonial writers characterized the Caribbean as a space of spiritual, social, and moral depravity. While tracing this critique in colonial accounts of Island Carib cultures, piracy, spirit beliefs, slavery, miscegenation, and incest, Garraway develops a theory of “the libertine colony.” She argues that desire and sexuality were fundamental to practices of domination, laws of exclusion, and constructions of race in the slave societies of the colonial French Caribbean. Among the texts Garraway analyzes are missionary histories by Jean-Baptiste Du Tertre, Raymond Breton, and Jean-Baptiste Labat; narratives of adventure and transgression written by pirates and others outside the official civil and religious power structures; travel accounts; treatises on slavery and colonial administration in Saint-Domingue; the first colonial novel written in French; and the earliest
linguistic description of the native Carib language. Garraway also analyzes legislation—including the Code noir—that codified slavery and other racialized power relations. The Libertine Colony is both a rich cultural history of creolization as revealed in Francophone colonial literature and an important contribution to theoretical arguments about how literary critics and historians should approach colonial discourse and cultural representations of slave societies.

The Oxford Handbook of the Georgian Theatre 1737-1832-Julia Swindells 2014-01
This Handbook provides a comprehensive guide to theatre of the Georgian era that will be equally useful to students new to this period of drama and to scholars working within the field. The Handbook gives equal attention to the range of dramatic forms - not just tragedy and comedy, but the likes of melodrama and pantomime - as they developed and overlapped across the period, and to the occasions, communities, and materialities of theatre production. It includes sections on historiography, the censorship and regulation of drama, theatre and the Romantic canon, women and the stage, and the performance of race and empire.

Novel Cleopatras-Nicole Horejsi 2019-05-15
Advocating a revised history of the eighteenth-century novel, Novel Cleopatras showcases the novel's origins in ancient mythology, its relation to epic narrative, and its connection to neoclassical print culture. Novel Cleopatras also rewrites the essential role of women writers in history who were typically underestimated as active participants of neoclassical culture, often excluded from the same schools that taught their brothers Greek and Latin. However, as author Nicole Horejsi reveals, a number of exceptional
middle-class women were actually serious students of the classics. In order to dismiss the idea that women were completely marginalized as neoclassical writers, Horejsi takes up the character of Dido from ancient Greek mythology and her real-life counterpart Cleopatra, the queen of Egypt. Together, the legendary Dido and historical Cleopatra serve as figures for the conflation of myth and history. Horejsi contends that turning to the doomed queens who haunted the Roman imagination enabled eighteenth-century novelists to seize the productive overlap among the categories of history, romance, the novel, and even the epic.

Eighteenth-Century British Literature and Postcolonial Studies-Suvir Kaul 2009-02-25
'This book convincingly challenges both the extremely short historical memory of most postcolonial work and the all-too-insularly English world still conjured by period specialists. Hogarthian whores and Grub Street hacks, coffee houses and fashionable pastimes, and the burgeoning of print culture all stand revealed as intimately bound to portents of plantation insurgency, agitation for abolition, and the vast fortunes produced by the labouring bodies of the poor, the colonized, and the enslaved. Eighteenth-century studies has never appeared in a more engaged and fascinating light.'Professor Donna Landry, University of Kent
In this volume Suvir Kaul addresses the relations between literary culture, English commercial and colonial expansion, and the making of 'Great Britain' in the late seventeenth and eighteenth centuries. He argues that literary writing played a crucial role in generating the vocabulary of British nationalism, both in international terms and in attempts to realign political and cultural relations between England, Scotland, and Ireland. The formal innovations and practices characteristic of eighteenth-century English literature were often responses to the worlds brought into view by travel writers, merchants, and colonists. Writers (even those suspicious of mercantile and colonial expansion) worked with a growing sense of a 'national
literature' whose achievements would provide the cultural capital adequate to global imperial power, and would distinguish Great Britain for its twin success in 'arms and arts'. The book ranges from Davenant's theatre to Smollet's Roderick Random to Phillis Wheatley's poetry to trace the impact of empire on literary creativity. Key Features*An introduction to the impact of mercantilism and empire on the crafting of eighteenth-century British literature*Encourages students to examine the key formal innovations that define eighteenth-century British literary history as they were produced by writers who redefined

Invoking Slavery in the Eighteenth-Century British Imagination-Sridhya Swaminathan 2016-05-06 In the eighteenth century, audiences in Great Britain understood the term ‘slavery’ to refer to a range of physical and metaphysical conditions beyond the transatlantic slave trade. Literary representations of slavery encompassed tales of Barbary captivity, the ‘exotic’ slaving practices of the Ottoman Empire, the political enslavement practiced by government or church, and even the harsh life of servants under a cruel master. Arguing that literary and cultural studies have focused too narrowly on slavery as a term that refers almost exclusively to the race-based chattel enslavement of sub-Saharan Africans transported to the New World, the contributors suggest that these analyses foreclose deeper discussion of other associations of the term. They suggest that the term slavery became a powerful rhetorical device for helping British audiences gain a new perspective on their own position with respect to their government and the global sphere. Far from eliding the real and important differences between slave systems operating in the Atlantic world, this collection is a starting point for understanding how slavery as a concept came to encompass many forms of unfree labor and metaphorical bondage precisely because of the power of association.

The Spectator-Donald J. Newman 2005 The
Spectator: Emerging Discourses brings together a distinguished coterie of international scholars who take a fresh look at this influential eighteenth-century English periodical. Taking advantage of the insights provided by such critical perspectives as new historicism, postcolonialism, psychology, postmodernism and cultural studies, and by such theorists as Michel Foucault and Jurgen Habermas, the scholars represented herein offer new insights into The Spectator's relation to the changing society that influenced it—and that it in turn influenced.

The Creation of the British Atlantic World-Elizabeth Mancke 2015-08-27 The Creation of the British Atlantic World provides insight into the competing forces that forged the Atlantic world as well as the reciprocal relationships between the growing British Empire and the individuals, groups, and subnations within that empire.

The Global Indies-Ashley L. Cohen 2021-01-05 A study of British imperialism’s imaginative geography, exploring the pairing of India and the Atlantic world from literature to colonial policy In this lively book, Ashley Cohen weaves a complex portrait of the imaginative geography of British imperialism. Contrary to most current scholarship, eighteen-century Britons saw the empire not as separate Atlantic and Indian spheres but as an interconnected whole: the Indies. Crisscrossing the hemispheres, Cohen traces global histories of race, slavery, and class, from Boston to Bengal. She also reveals the empire to be pervasively present at home, in metropolitan scenes of fashionable sociability. Close-reading a mixed archive of plays, poems, travel narratives, parliamentary speeches, political pamphlets, visual satires, paintings, memoirs, manuscript letters, and diaries, Cohen reveals how the pairing of the two Indies in discourse helped produce colonial policies that linked them in practice. Combining the methods of literary studies and new imperial history, Cohen demonstrates how the imaginative
geography of the Indies shaped the culture of British imperialism, which in turn changed the shape of the world.

**Theatres of Feeling** - Jean I. Marsden 2019-06-30 Engaging account of theatregoing in the later eighteenth century that explores how audiences responded emotionally to the performances.

**The Cambridge Companion to English Literature, 1740-1830** - Ita 2004-06-17 This volume offers an introduction to British literature that challenges the traditional divide between eighteenth-century and Romantic studies. Contributors explore the development of literary genres and modes through a period of rapid change. They show how literature was shaped by historical factors including the development of the book trade, the rise of literary criticism and the expansion of commercial society and empire. The wide scope of the collection, juxtaposing canonical authors with those now gaining new attention from scholars, makes it essential reading for students of eighteenth-century literature and Romanticism.

**The Eighteenth-Century British Verse Epistle** - B. Overton 2007-10-23 This is the first book to cover the whole range of epistolary verse in the period, including the discursive type favoured by Pope and the familiar and dramatic epistles. It advances a new model for defining the form, demonstrates the form's importance in the period, and pays attention to non-canonical epistles by women and labouring-class writers.

**The Encyclopedia of British Literature 1660 - 1789 Set** - Gary Day 2015-03-09 "Presents a comprehensive overview of all aspects of the poetry, drama, fiction, and literary and cultural criticism produced from the Restoration of the English monarchy to the onset of the French Revolution"--

Difference of a Different Kind-Iris Idelson-Shein 2014-04-02 European Jews, argues Iris Idelson-Shein, occupied a particular place in the development of modern racial discourse during the late seventeenth and early eighteenth centuries. Simultaneously inhabitants and outsiders in Europe, considered both foreign and familiar, Jews adopted a complex perspective on otherness and race. Often themselves the objects of anthropological scrutiny, they internalized, adapted, and revised the emerging discourse of racial difference to meet their own ends. Difference of a Different Kind explores Jewish perceptions and representations of otherness during the formative period in the history of racial thought. Drawing on a wide range of sources, including philosophical and scientific works, halakhic literature, and folktales, Idelson-

Shein unfolds the myriad ways in which eighteenth-century Jews imagined the "exotic Other" and how the evolving discourse of racial difference played into the construction of their own identities. Difference of a Different Kind offers an invaluable view into the ways new religious, cultural, and racial identities were imagined and formed at the outset of modernity.

Romantic Literature and Postcolonial Studies-Elizabeth A Bohls 2013-01-22 This book examines the relationship between Romantic writing and the rapidly expanding British Empire. Literature played a crucial role in constructing and contesting the modern culture of empire that was fully in place by the start of the Victorian period. Postcolonial criticism's concern with issues of geopolitics, race and gender, subalternity and exoticism shape discussions of works by major authors such as Blake, Coleridge, both Shelleys, Austen and Scott, as well as their less familiar contemporaries.

Consuming the Caribbean-Mimi Sheller 2003 Sheller demonstrates how colonial exploitation of the Caribbean led directly to contemporary forms of consumption of the region and its products, aiming to trouble innocent indulgence in the pleasures of thoughtless consumption.

Caribbean Exchanges-Susan Dwyer Amussen 2009-03-24 English colonial expansion in the Caribbean was more than a matter of migration and trade. It was also a source of social and cultural change within England. Finding evidence of cultural exchange between England and the Caribbean as early as the seventeenth
century, Susan Dwyer Amussen uncovers the learned practice of slaveholding. As English colonists in the Caribbean quickly became large-scale slaveholders, they established new organizations of labor, new uses of authority, new laws, and new modes of violence, punishment, and repression in order to manage slaves. Concentrating on Barbados and Jamaica, England's two most important colonies, Amussen looks at cultural exports that affected the development of race, gender, labor, and class as categories of legal and social identity in England. Concepts of law and punishment in the Caribbean provided a model for expanded definitions of crime in England; the organization of sugar factories served as a model for early industrialization; and the construction of the "white woman" in the Caribbean contributed to changing notions of "ladyhood" in England. As Amussen demonstrates, the cultural changes necessary for settling the Caribbean became an important, though uncounted, colonial export.

Approaches to Teaching Behn's Oroonoko
Cynthia Richards 2014-04-04 Once merely a footnote in Restoration and eighteenth-century studies and rarely taught, Oroonoko; or, The Royal Slave (1688), by Aphra Behn, is now essential reading for scholars and a classroom favorite. It appears in general surveys and in courses on early modern British writers, postcolonial literature, American literature, women's literature, drama, the slave narrative, and autobiography. Part 1 of this volume, "Materials," provides not only resources for the teacher of Oroonoko but also a brief chronology of Behn's life and work. In part 2, "Approaches," essays offer a diversity of perspectives appropriate to a text that challenges student assumptions and contains not one story but many: Oroonoko as a romance, as a travel account, as a heroic tragedy, as a window to seventeenth-century representations of race, as a reflection of Tory-Whig conflict in the time of Charles II.
The British Atlantic World, 1500-1800 - David Armitage 2009-01-15 This text was the first edited collection on the burgeoning history of the early modern Atlantic world and has had a huge impact on the many fields of Atlantic Studies. This second edition features two new essays on science and global history respectively, as well as a revised Introduction and updated guides to further reading.

Atlantic Worlds in the Long Eighteenth Century - T. Bowers 2012-02-14 Innovative and multidisciplinary, this collection of essays marks out the future of Atlantic Studies, making visible the emphases and purposes now emerging within this vital comparative field. The contributors model new ways to understand the unexpected roles that seduction stories and sentimental narratives played for readers struggling to negotiate previously unimagined differences between and among people, institutions, and ideas.

Heroes of Empire - Richard Frohock 2004 Over the past decade, literary scholars have become increasingly engaged with colonial studies and have fashioned various points of focus in their investigations of imperialist narratives, including the figure of woman, cannibalism, the romance of the first encounter, and the tropicopolitan. This book builds on existing work by offering a new focal point: the evolution of the British imperial hero in America from Sir Walter Ralegh's Discoverie of... Guiana (1596) to James Grainger's The Sugar Cane (1764), with concentration on narratives produced between the year of Cromwell's Western Design (1655) and the British raid on Cartegena (1741). Each
individual chapter isolates a distinct type of colonial hero, furnishing examples from a wide variety of narratives, including some nonfiction essays and tracts, but chiefly novels, plays, and poems.

Obi-William Earle 2005-07-27 “Three-Fingered Jack,” the protagonist of this 1800 novel, is based on the escaped slave and Jamaican folk hero Jack Mansong, who was believed to have gained his strength from the Afro-Caribbean religion of obeah, or “obi.” His story, told in an inventive mix of styles, is a rousing and sympathetic account of an individual’s attempt to combat slavery while defending family honour. Historically significant for its portrayal of a slave rebellion and of the practice of obeah, Obi is also a fast-paced and lively novel, blending religion, politics, and romance. This Broadview edition includes a critical introduction and a selection of contemporary documents, including historical and literary treatments of obeah and accounts of an eighteenth-century slave rebellion.
